

SUMARIO

Presentación por E. BANDA	9
Paleomagnetic applications in the Iberian Peninsula: An introduction and assessment, by D. H. TARLING	11
Lower Permian to Miocene apparent polar wander path for Iberia and its bearings on kinematic evolution, by J. J. SCHOTT	21
Investigaciones paleomagnéticas en la zona Subbética, por M. L. OSETE, R. FREEMAN y R. VEGAS	39
Síntesis de los resultados paleomagnéticos de los bordes de la cuenca Catalano-Balear, por J. M. PARES, R. FREEMAN y F. SÀBAT	59
Paleomagnetismo y modelos geodinámicos en la Península Ibérica, por R. VEGAS	75
Paleomagnetismo del volcanismo de Cataluña: resultados preliminares, por J. C. CARRACEDO, E. RODRÍGUEZ BADIOLA, V. SOLER y P. CHICHARRO	83
Magnetostratigraphy and the Geomagnetic polarity record, by W. LOWRIE	95
Magnetic reversal stratigraphy in the Oligocene succession of the Ebro Basin, Northern Spain, by P. F. FRIEND, S. A. BRAZIER, L. CABRERA, K. W. A. FEISTNER and J. SHAW	121
Diagenetic processes and remagnetization in Permo-Triassic red beds, by P. TURNER, A. TURNER, A. RAMOS and A. SOPEÑA	131
Hercynian Paleomagnetism of Europe: Arguments for large scale complex thin-skinned and thick-skinned rotations, by V. BACHTADSE	147
Paleomagnetic results from Paleozoic rocks of the Iberian Meseta, by H. PERROUD	163
Estudio paleomagnético de las rocas tardihercinianas de la Cadena Costera Catalana: primeros resultados, por J. M. PARÉS	171

Paleomagnetic estimates of total rotation in basement thrust sheets, Axial Zone, Southern Pyrenees, by E. McCLELLAND and A. M. McCaIG	181
Precambrian Paleomagnetism; some considerations, by G. BYLUND	
Reconnaissance Magnetostratigraphy of the Precambrian-Cambrian boundary section at Meishucun, Southwest China, by F. WU, R. VAN DER VOO and Q. Z. LIANG	205
MAVACS —a new system creating a non-magnetic environment for paleomagnetic studies, by K. PRIHODA, M. KRS, B. POSINA and J. BLÁHA	223
