

DIALECTOLOGIA

<http://www.publicacions.ub.es/revistes/dialectologia3/>

Dialectologia is published at University of Barcelona and it has four main aims:

1. to provide dialectologists from all over the world with a forum for the exchange of ideas and methods,
2. to create links between dialectology and more or less related disciplines,
3. to study language variation from different points of view,
4. to bring dialectology up-to-date by incorporating new techniques and modern theoretical approaches.
