Deadline: November 1, 2016

The Center for Linguistics, Language Education and Acquisition Research (CLLEAR) is pleased to announce the *14th Generative Approaches to Second Language Acquisition conference (GASLA 14)* to be held at the University of Southampton on 6-9 April 2017.

The conference provides a forum for discussion of recent, high quality research on second language acquisition, bilingual and multilingual acquisition, psycholinguistics

and neurocognition. GASLA brings together researchers working on the nature, use, and development of interlanguage in all contexts of bilingual and multilingual acquisition.

GASLA 14 will include, in addition to the main session, a special session on the linguistic input and its interaction with representation and processing.

For the Main Session, we invite abstract submissions for presentations or posters of original, unpublished work on all subfields of generative language acquisition: L2 acquisition, bilingualism, multilingualism, heritage language acquisition, psycho-linguistics, neurolinguistics, etc. In addition to the Main Session, there will be a special session on the linguistic input and its interaction with representation and processing. The submission rules for the special session are the same as those for the main session.

Invited Speakers

Heather Marsden (University of York)

Mike Sharwood Smith (Heriot Watt University and Edinburgh University)

Marit Westergaard (UiT The Arctic University of Norway and NTNU The Norwegian University of Science and Technology)

Jason Rothman (University of Reading and UiT The Arctic University of Norway), invited speaker for the special session on the linguistic input

Organizing Committee

Roumyana Slabakova

Laura Dominguez
