Sheffield Hallam University

DA On-Line (ISSN 1477-7843) is a brand new, international, interactive on-line journal dedicated to the publication of discourse analysis research.

DA On-Line uses interactive, internet-based media to provide an innovative forum for the presentation of discourse analysis research, to foster on-line collaboration and dialogue within the DA community and to redesign the conventional journal review process.

Discourse Analysis On Line invites submissions from all discourse researchers in the social sciences, cultural studies or humanities, particularly discussions of the practical applications of discourse studies.
