

Topics in Geophysics

ISSN: 0214-4557

Vol. 18

2006

Contents

	Pages
<i>Prólogo</i> J. TÉLLEZ y D. MUÑOZ	7-9
1. <i>Focal mechanism and seismotectonics: contribution of Agustín Udías</i> E. BUFORN y C. PRO	11-23
2. <i>Ocurrente and prediction of earthquakes. Physical bases</i> A. M. CORREIG	25-45
3. <i>Ebre Observatory Contribution to de IAGA Internacional Service of Rapid Magnetic Variations</i> J.J. CURTO, J.O. CARDÚS, L.F. ALBERCA y E. BLANCH	47-68
4. <i>Investigating the Lithospheric Structure of the Iberian Peninsula and its Margins: Three Decades of Deep Seismic Profiles</i> J. GALLART, J. DÍAZ y D. CÓRDOBA	69-96
5. <i>On the External Forcing of the Ionosphere-Atmosphere System</i> M. HERRAIZ y E. KAZIMIROVSKI	97-118
6. <i>The Geophysics in the Royal Naval Institute and Observatory in San Fernando</i> J. MARTÍN DAVILA, J. GÁRATE PASQUÍN, A. PAZOS GARCÍA y M. CATALÁN MOROLLÓN	119-135
7. <i>Seismicity, Seismotectonic and Geodynamic Evolution of the Iberian Peninsula</i> J. MEZCUA y J. RUEDA	137-155
8. <i>Iberian Palaeomagnetic poles for the last 300 Ma.</i> M.L. OSETE y A. PALENCIA ORTAS	157-181
9. <i>Advanced Approach for Vulnerability and Seismic Risk Evaluation. Application to the City of Barcelona</i> A. ROCA, J. IRIZARRY, N. LANTADA, A. BARBAT, X. GOULA, L. PUJADES y T. SUSAGNA	183-203

10. <i>3D Numerical Inversion of gravity data from marine surveys and satellite. Application to an Antarctic area</i>	205-227
E. SURIÑACH, E.L. FLORES-MARQUEZ y R. E. CHÁVEZ
