Bioclimatic typology of Jujuy Province (Argentina). Gabriela S. ENTROCASSI, Dante F. HORMIGO, Rosario G. GAVILÁN & Daniel SÁNCHEZ-MATA.	7-18
Biogeographic trends of endemic and subendemic flora in the western Iberian Peninsula under scenarios of future climate changes. João ROCHA, Rubim ALMEIDA DA SILVA, Francisco AMICH, Álvaro MARTINS, Paulo ALMEIDA, José T. ARANHA, Isabel GARCÍA-CABRAL, Mónica MARTINS, Carlos CASTRO & António L. CRESPI.	19-35
Semi-deciduous forests syntaxa from Sierra Maestra, Eastern Cuba. Orlando J. REYES & Félix ACOSTA CANTILLO.	37-53
Lichen community from an endangered forest under different management practices in central Argentina. Edith R. FILIPPINI, Juan M. RODRIGUEZ & Cecilia ESTRABOU.	55-63
Special Feature: Mountain Biodiversity patterns in Southern Europe and North Africa	
Alpine plant communities in the Picos de Europa calcareous massif (Northern Spain). Borja JIMÉNEZ-ALFARO, José Ignacio ALONSO FELPETE, Álvaro BUENO SÁNCHEZ & José Antonio FERNÁNDEZ PRIETO.	67-105
Persistence of tree relicts in the Spanish Central System through the Holocene. Daniel ABEL SCHAAD, Fernando PULIDO, José Antonio LÓPEZ SÁEZ, Francisca ALBA SÁNCHEZ, Diego NIETO LUGILDE, Fátima FRANCO MÚGICA, Sebastián PÉREZ DÍAZ, M. Blanca RUIZ ZAPATA, M. José GIL GARCÍA & Miriam DORADO VALIÑO.	107-131
<i>Festuca carpetana</i> (<i>Poaceae</i>), a new species for the Iberian flora. Vicenta DE LA FUENTE & Daniel SÁNCHEZ-MATA.	133-137
Taxonomic peculiarities of marcescent oaks (<i>Quercus</i> , <i>Fagaceae</i>) in southern Portugal. Carlos VILA-VIÇOSA, Francisco M. VÁZQUEZ, Catarina MEIRELES & Carlos PINTO GÓMES.	139-153
Diagnosis of the aromatic and medicinal plant sector in Morocco: Case of the cooperatives and associations of the Meknès-Tafilalt area Mouhcine FADIL, Abdellah FARAH, Taoufik HALOUI & Saâd RACHIQ.	155-165

Phytosociological Nomenclature Section (62-64)

62. Syntaxonomic and nomenclatural novelties in the wetland vegetation of Baikal Siberia (Russian Federation). 169-179
Victor CHEPINOVA.
63. Validation of names of some syntaxa of the Crimean vegetation. 181-190
Yakiv P. DIDUKH & Ladislav MUCINA.
64. Symphytosociological nomenclature: new proposals. 191-194
Jesús IZCO.

Short notes

- Importance of climatic data analysis for biodiversity studies in Mediterranean mountains of the Iberian Peninsula. 197-201
José Manuel BLANQUER LORITE, Alba GUTIÉRREZ GIRÓN & Rosario G. GAVILÁN.
- Plants with conservation interest in the Complutense University's Biological Field Station. 203-207
Elena CASTOLDI, Alberto BENAVENT & José Antonio MOLINA.
- New contributions to the flora of León. 209-219
Linda GONZÁLEZ DE PAZ, Sara DEL RÍO & Ángel PENAS.
- Notes on rare and threatened flora in western-central Iberia. 221-226
Rubén RAMÍREZ-RODRÍGUEZ & Francisco AMICH.
- Index of nomenclatural syntaxonomic novelties** 227
- Index of nomenclatural taxonomic novelties** 229
